

Our GWO SEA SURVIVAL & VESSEL TRANSFER gives you the skills needed for this task. To view available dates for the GWO Sea Survival & Vessel Transfer and book online, please visit our course calendar here at www.aslsafety.com/training

What you will do while here with us for this course.

GWO Sea Survival & Vessel Transfer

Our training course provides the knowledge and skills to:

Safely travel to, from and on offshore wind installations and vessels

Use sea survival techniques and possible aids, rescue equipment and methods

Safely transfer between vessels and installations

Safely evacuate a nacelle to the sea in an emergency

Safely evacuate a vessel in the event of an emergency, correctly using Life Saving equipment..

On completion Participants will be able to;

Understand the advantages, limitations and correct use Life Saving Appliances (LSA),

Personal Protective Equipment (PPE) and Personal Fall Protective Equipment (PPE) found in the offshore wind energy industry

Demonstrate knowledge of risks related to transfer between offshore wind turbines, installations and vessels.

Demonstrate safe transfer from vessel.

Demonstrate knowledge of dangers and symptoms related to hypothermia and drowning, of the emergency and safety procedures on installations & vessels.

Demonstrate recovery and first aid treatment of a “man overboard”.

Demonstrate evacuation from a mock wind turbine generator to the water by means of rescue device.

Demonstrate individual and collective survival techniques at sea.
